Financial Statements and FP&A Pack

Fiscal year ended December 31, 2025 · USD · unaudited

Illustrative figures for privacy. They are modeled on the business's size, sales channels and products, and are not its actual results.

Model status All 15 integrity checks pass

Contents	
Income Statement	Statement of operations for 2025
Balance Sheet	Financial position at December 31, 2025, with the January 1 opening balance
Cash Flows	Statement of cash flows, indirect method
Equity Statement	Statement of changes in members' equity
Notes	Accounting policies and supporting detail
Budget vs Actual	Spending against the \$20,000 monthly budget, by line and by month
Forecast	FY2026 monthly forecast with Base, Upside and Downside scenarios
KPIs	Monthly KPIs with four charts
SQL Analysis	Results of the analysis queries in 5_SQLite_Database/queries/, with charts
Monthly P&L	Income statement by month
Monthly BS	Balance sheet at the opening and every month end
Monthly CF	Cash flow by month
Schedules	Roll forwards: equipment, inventory, receivables, payables, sales tax, equity
Budget	The monthly budget by line
Assumptions	Every input in one place
Data	The monthly SQL pull that feeds the model
Checks	Integrity checks: every one must read OK

Color code	
1,000	Blue: an input, or data pulled from the database with SQL
1,000	Black: a formula working within its own sheet
20,000	Green: a formula linking to another sheet (this one pulls the monthly budget from Assumptions)
1,000	Yellow fill: a key assumption, the place to change the model

How it is built	
Data	Transactions sit in a SQLite database, 5_SQLite_Database/escentials.db: orders, order lines, refunds, expenses and owner transactions.
SQL	Queries in 5_SQLite_Database/queries/ summarize them by month, and the results land on the Data sheet.
Model	Every statement is a live formula that traces back to the Data sheet, so changing an input updates the whole pack.
Checks	The Checks sheet proves it ties: the balance sheet balances every month, cash flow agrees with the balance sheet, and sales agree with SQL control totals.
Tools	Excel, SQL (SQLite), Tableau and PowerPoint.
Prepared by	George Murad

Escentials LLC

Statement of Operations

For the year ended December 31, 2025

Unaudited. Illustrative figures for privacy: modeled on the business's size, channels and products, not its actual results.

USD	2025	% of net revenue
Revenue		
Merchandise sales	\$200,956	99.1%
Shipping income	7,631	3.8%
Less: discounts, returns and refunds	(5,853)	(2.9%)
Net revenue	\$202,734	100.0%
Cost of goods sold	140,408	69.3%
Gross profit	\$62,326	30.7%
Operating expenses		
Marketplace fees	15,851	7.8%
Payment processing	3,224	1.6%
Shipping and fulfillment	17,935	8.8%
Advertising and marketing	6,754	3.3%
Packaging and supplies	1,036	0.5%
Software and subscriptions	924	0.5%
Professional fees	970	0.5%
Taxes and licenses	910	0.4%
General and administrative	1,003	0.5%
Depreciation	503	0.2%
Total operating expenses	49,111	24.2%
Operating income	\$13,215	6.5%
Net income	\$13,215	6.5%

No income tax is recorded: the LLC is taxed as a pass through entity (Note 7).

See the accompanying notes.

Net income	13,215
Member distributions	(9,000)
Balance, December 31, 2025	\$10,062

See the accompanying notes.

Escentials LLC

Notes to the Financial Statements

For the year ended December 31, 2025

Unaudited. Illustrative figures for privacy: modeled on the business's size, channels and products, not its actual results.

1. Organization and nature of business

Escentials LLC (the Company) is a limited liability company. It sells authentic designer fragrance online through eBay and its own Shopify store, and sells its own Car Perfume line: hanging glass bottles and refills.

2. Basis of presentation

These statements are prepared on the accrual basis under accounting principles generally accepted in the United States (US GAAP). They are unaudited and prepared by management. The figures are illustrative: they are modeled on the Company's size, sales channels and products, and are not its actual results, which are kept private.

3. Use of estimates

Preparing financial statements requires estimates, including returns, the value of inventory and the useful life of equipment. Actual results could differ.

4. Revenue recognition

Revenue is recognized under ASC 606 when control of a product passes to the customer, at shipment, and is reported net of discounts and refunds. For drop shipped designer fragrance the Company is the principal: it sets the price, accepts the order and handles returns, so it reports those sales gross and the supplier's charge as cost of goods sold. Shipping charged to customers is revenue; shipping and handling costs are fulfillment costs within operating expenses. Sales tax collected on Shopify orders is a liability, not revenue; eBay collects and remits the tax on eBay orders as the marketplace facilitator.

5. Inventory

Inventory is Car Perfume bottles, fragrance oil and refills, stated at the lower of cost (first in, first out) and net realizable value. Designer fragrance ships directly from the supplier, so the Company holds none of it. Inventory at December 31, 2025 was \$2,198.

6. Equipment

Equipment is stated at cost and depreciated on a straight line basis over 3 years. At December 31, 2025 its cost was \$1,647, accumulated depreciation was \$503, and 2025 depreciation expense was \$503.

7. Income taxes

The Company is a limited liability company taxed as a pass through entity: its income is reported on its member's tax return, so these statements include no provision for income taxes. The Company pays California's \$800 annual LLC tax, included in taxes and licenses.

8. Advertising

Advertising, including eBay promoted listings, is expensed as incurred. It totaled \$6,754 in 2025.

9. Member transactions

During 2025 the member contributed \$2,500 and received distributions of \$9,000.

10. Concentrations

eBay produced 58% of merchandise sales, and Shopify the rest. Designer fragrance comes from a single wholesale supplier; losing it would interrupt sales until a replacement was found.

11. Subsequent events

Subsequent events were evaluated through the date these statements were issued.

Budget vs Actual

Spending against budget, fiscal 2025. Variance is budget less actual: positive means under budget.

Illustrative figures for privacy: modeled on the business's size, channels and products, not its actual results

By line, full year

Line	Budget	Actual	Variance	Variance %	Status
Designer fragrance COGS	176,400	134,006	42,394	24.0%	Favorable
